Popular New ENGLISH CHRYSANTHEMUMS

For Huge Blooms of
Chrysanthemums We Advise These
New English Chrysanthemums

By disbudding the plants to produce 8 to 12 buds, you will have huge blooms. If plants are left to grow naturally without disbudding, you will find the flowers are even larger than the older varieties and are still produced in abundance. They are all equal in hardiness, and are early blooming, with large flowers of brilliant colors unsurpassed in the garden. Excellent for cutting.

COPPELIA. Bright Indian red to orange, flecked with gold. Unusual and outstanding with fine, strong stems. One of our best sellers. Blooms in September. 50c each; 3 for \$1.35; \$5.00 per doz.

DR. GEORGE BARNES. A September bloomer of peach, shaded cream, with gold points. If disbudded, it produces a perfectly incurved flower 6 inches across of unusual beauty. 50c each; 3 for \$1.35; \$5.00 per doz.

HOPOE. Beautiful old rose, blooming in September, which will grow 6-inch blooms or larger if disbudded. Fine, sturdy stems. 50c each; 3 for \$1.35; \$5.00 per doz.

JEAN HARLOW. A September bloomer, producing bright golden yellow flowers with semi-incurving form. 50c each; 3 for \$1.35; \$5.00 per doz.

ORANGE QUEEN. Richest colored golden yellow to date. A September blooming variety which produces broad, large, and slightly twisted flowers of fine substance; and tall, stiff stems with fine foliage. 60c each; 3 for \$1.50; \$5.50 per doz.

RED INVADER. Vigorous grower, with long, upright stems bearing crimson-chestnut flowers with gold reverse. Very fine and large, blooms in August and September. 50c each; 3 for \$1.35; \$5.00 per doz.

REVELLER. A heavy bloomer and exceptionally showy variety of bright Indian red with stout stems. September blooming. 50c each; 3 for \$1.35; \$5.00 per doz.

TRIXIE. A beautiful and unusual combination of salmon, apricot and pink. Flowers are large with long, spiky petals. Free blooming with long, wiry stems. A lovely September bloomer. 50c each; 3 for \$1.35; \$5.00 per doz.

UNA. Slightly incurving flowers of delicate pink with silvery reverse, which blooms in late September. 50c each; 3 for \$1.35; \$5.00 per doz.

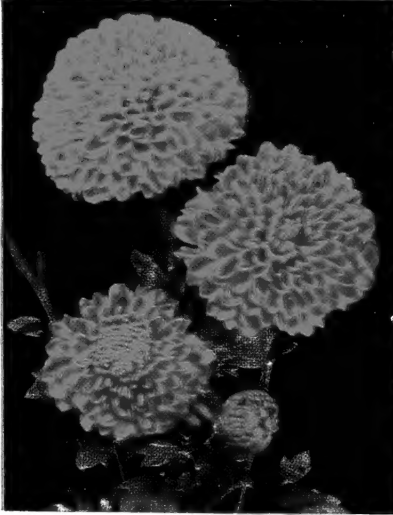

ZENITH. Large, solid purple. A color that is different than all others, and if disbudded, makes a very lovely large exhibition variety. Blooms in September and October. 60c each; 3 for \$1.50; \$5.50 per doz.

VESPER IRIS (Dichotoma)

The graceful filigree of the branches of these Vesper Iris is studded with from one to two hundred jewel-like flowers, truly a mammoth bouquet. The delicately colored blossoms, which at a distance resemble a multitude of gorgeous butterflies at rest with motionless outstretched wings, vary in color including such hues as translucent lavender with markings of mahogany, copper, lemon and orange-brown.

The Vesper Iris, which are exceedingly easy to grow, bloom for a month during July and August, when flowers are scarce. Vespers resist both severe cold and intense heat with impunity. Be the first in your locality to grow this unique Iris.

TUBEROUS BEGONIAS

Imported from Belgium

These gorgeous summer-flowering bulbs produce brilliant flowers which are carried well above the abundant foliage. They thrive superbly well in moist soil in shady spots. Bulbs may be started indoors in pots in March or April and transplanted outdoors when warm weather arrives, or they may be planted outdoors from mid-June on, or earlier, providing the soil is warm. Bulbs should be planted about 2 inches deep. Lovely delicate shades, as well as brilliant colors, as follows:

TIGRIDIA

(Tiger Flower)

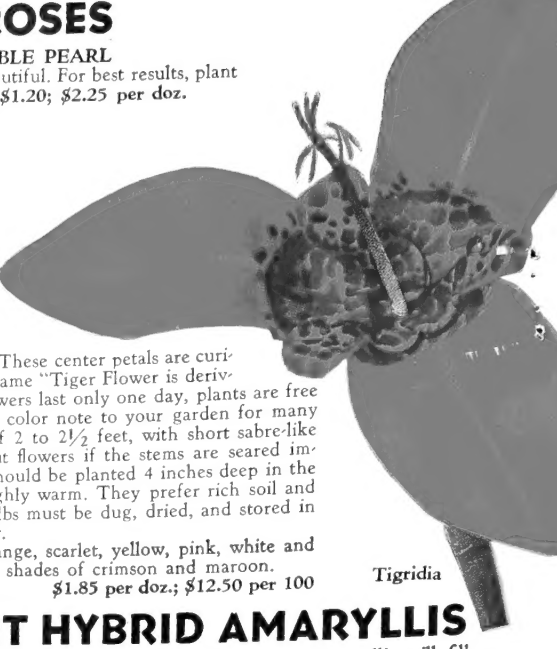

Also known as Mexican Shell Flowers, these unique, but little known flowers come from the ancient gardens of Mexico. Flowering in midsummer, the three outer petals form a triangular pattern which is repeated in the arrangement of the three smaller center petals. These center petals are curiously spotted, from which the name "Tiger Flower" is derived. Although the individual flowers last only one day, plants are free blooming and lend a dominant color note to your garden for many weeks. Plants attain a height of 2 to 2 1/2 feet, with short sabre-like foliage, and may be used as cut flowers if the stems are seared immediately after cutting. Bulbs should be planted 4 inches deep in the spring when the soil is thoroughly warm. They prefer rich soil and full sun. In late autumn the bulbs must be dug, dried, and stored in a cool, dry place for the winter.

Varied shades of brilliant orange, scarlet, yellow, pink, white and lilac, blotched and spotted with shades of crimson and maroon.

For Indoor Beauty - GIANT HYBRID AMARYLLIS

When the ground is frozen hard and the landscape is bleak and barren, these gorgeous Amaryllis will fill your home with luxuriant tropical beauty. Originally from Southern Africa, these bulbs, which produce large, Lilylike blooms beautifully formed and colored, are amazingly easy to grow. Just plant the bulbs in a six- or seven-inch pot, with rich, sandy soil, preferably including a little leaf mold, leaving the crown of the bulb uncovered above the soil.

We are pleased to offer you a mixture of striped colors ranging from pure white and varied shades of pink to deepest red.

Giant Hybrid Amaryllis (Description above)

Our 1950 full color, illustrated bulb catalog, listing Tulips, Daffodils, and other bulbs for fall planting, will be ready for distribution in May, and will be sent to all our customers and friends who receive a copy of this plant list.
